

Narrow Automatic Door

This operator increases perfection of the beauty, by using the door equal to existing manual door's 100mm bar.

Single-Sliding Door	WS-T200(S)
Double-Sliding Door	WS-T400(D)

In case of installing automatic door on the manual door, this type is suitable for entrance that is difficult to install because of the size of operator. This operator increases perfection of the beauty, by squaring size of operator with manual door's 100mm bar.
